Tutoring Experience

For nearly two decades, I've worked with students navigating the complexities of IB TOK, helping them develop strong critical thinking skills and tackle areas like knowledge frameworks and ethics. My students consistently excel in their essays and presentations, with many achieving top grades.

My experience also includes teaching A-Level Philosophy and IGCSE Global Perspectives, where I guide students in analysing philosophical texts and crafting arguments. I've supported students from international schools, ensuring they meet the demands of rigorous curricula while cultivating a deeper understanding of their subjects.

Beyond tutoring, I've collaborated with academic institutions in Canada to develop resources and workshops for Theory of Knowledge, enabling students to approach their coursework with confidence and creativity.
